

DockSight

End the two-hour truck line

Dock scheduling for Keystone Distribution

Maya Chen, Account Executive | October 2026

The problem: trucks wait, you pay

- Trucks wait 2.1 hours on average at your three DCs
- Carriers bill \$65 an hour in detention after 2 free hours
- About \$310,000 a year in detention fees
- Dock staff spend mornings on the phone rebooking slots

How DockSight works

- Carriers book a dock slot online, 24/7
- Live yard view shows every truck, door and delay
- Automatic text reminders cut no-shows
- Connects to your WMS so slots match open orders

Results at a similar distributor

Lakeview Foods, 4 distribution centers, first 90 days on DockSight

Pilot plan and pricing

- 60-day pilot at one DC, set up in 2 weeks
- \$1,200 per DC per month after the pilot
- No setup fee, cancel any time
- Next step: pick the pilot DC and a start date
